

Liberty Under Law—Equal Rights—True Industrial Freedom

ALLIED DRIVE CONTINUES TO ROLL ENEMY BACKWARD.

WITH THE AMERICAN ARMY ON THE AISNE-MARNE FRONT, July 23—Information reaching the intelligence department of the American army tonight indicated that the Germans were still continuing their retreat. Far behind their lines they are being subjected to a heavy bombardment by both French and American guns, which doubtless are hampering the movement of their enormous supplies.

American Doughboys Snap Trap on Huns.

Man Power that Counts.
INITIATIVE NOW OURS.
Blow at Enemy.
Victory in Battle for Allies.

WASHINGTON, July 23.—An official dispatch today from the American army indicated that the German offensive has failed, but expressed fear that Gen. Foch has built up an army of reserves that will enable him to wrest the offensive from the German high command.

The Frankfurter Zeitung asserts that the entire strategic plan of Hindenburg is compromised by the attack on the Aisne-Marne front.

"Something new appears in the strategic situation," says this paper. "Gen. Foch has been able to form an important army of reserves. Foch's attack aims to deal a blow in the back of Boehm's army, and should it be successful, it might compel this army to retreat under most unfavorable conditions."

"Foch's attack threatens the whole of Hindenburg's plans," the Strausburger Post says. The public in general attached too great hopes to the German offensive at Rheims, and asks: "From where do these troops come that the American transports have really brought more quickly than they were expected?"

The Muenchener Neuesten Nachrichten says France is still very strong; that America has more than half a million soldiers in France, and that the English army has been reconstructed and put into a perfect state. It adds that it will take weeks perhaps to wrest the initiative from Gen. Foch.

The progress of the Franco-American offensive continues "entirely satisfactory," Secretary Baker said today. The War Department, he added, has nothing from Gen. Pershing or Bliss later than the Associated Press dispatches.

"We are taking more and more territory every day, and the progress made is entirely satisfactory," said he.

WASHINGTON, July 23.—The American army tonight indicated that the Germans were still continuing their retreat. Far behind their lines they are being subjected to a heavy bombardment by both French and American guns, which doubtless are hampering the movement of their enormous supplies.

GERMAN PRESS IS PANIC-STRICKEN.

"Whence Come These Troops American Transports so Quickly Brought?"

WASHINGTON, July 23.—An official dispatch today from the American army indicated that the German offensive has failed, but expressed fear that Gen. Foch has built up an army of reserves that will enable him to wrest the offensive from the German high command.

The Frankfurter Zeitung asserts that the entire strategic plan of Hindenburg is compromised by the attack on the Aisne-Marne front.

CITIZEN SOLDIERS WRITE KAISER'S DOOM ON MARNE

Flower of German Army Crushed Under Stupendous Blows Given by Antagonist They Derided.

BY HARRY A. WILLIAMS.
The Times Own War Correspondent in France.
(SPECIAL CABLE.)

IN THE ZONE OF THE ARMIES, July 23.—Dip your pennons to the American doughboy. He has taken his place alongside the marine in the Homeric history now being written in the blood of heroes.

He has proved a match for the flower of the Kaiser's army—sometimes unheralded and unsung, for his was not a spectacular part in distant camps.

He came from the far corners of America to seek his chance in the fields of France. Often his life was one of drudgery, of tiresome drills, of long marches, of heavy toil, of patient waiting in the background.

His chance came at last and he emerged gloriously into the overwhelming drama. Out of that background he sprang to help fulfill the world's destiny. At a momentous hour he struck stupendous blows at the Germans, who since May 27 have been forcing themselves into a huge death trap.

Foch, master of self-repression, waited. When the trap was full he called on the doughboys to help close its massive jaws. With panther-like eagerness they responded. Their charge over heavy, swampy ground was one of the inspiring sights of the war. Stripped like boxers from the hips up, arms bare to the shoulder, and their sweat-wet breasts flashing in the sun, they were an epic in relentless motion as they surged against the Hun.

Some were college athletes, some were from iron foundries, others had hardened their sinews in the fields—all superlative types of manhood, standing to their work, their heads held high like those of free men, each face the face of an avenger. Under wind-tossed locks they fought like giants at a giant's task. As they drew back their bayonets for the death thrust or swung their clubbed rifles with crushing force, there was the play of whipcord sinews and powerful muscles under the velvet skin of youth.

Greek gods? NO—American doughboys.

ALLIES' GRIP TIGHTENS FROM MARNE TO AISNE.

Enemy Frantically Braces in an Effort to Stop Foch's Advance.

WASHINGTON, July 23.—The Allies continued today to tighten their vise-like grip upon the German salient around the curving line from Soissons to Rheims. The enemy is frantically bracing himself and is offering the stiffest resistance, which is increasing as he gets his artillery in place.

The weather along the battle front was inclement, rain and mist prevailing.

German reinforcements were reported in the district east of Soissons at the tip of the German right flank on the Aisne-Marne line.

While fires were reported in the district north of the Marne last night, there were no reports of similar configurations along the line south from Soissons, or that running southwest from Rheims.

The indications thus were that the Germans have determined not to give up additional territory along these flanks of their position unless they are compelled to do so.

Overnight information does not indicate any radical change in the situation along the battle front. The prospects seemed to be that today would be another of heavy attacks and counter-attacks, with not more than slight changes in the line.

The troops of Gen. Pershing and Gen. Petain are holding almost every inch of ground they have gained since the counter-blow began on Thursday last.

REPEL HUN ATTACKS.

The Franco-American forces north of Chateau Thierry are holding Epieds and near-by villages and a bit of territory northeast of Mont St. Pere. Further east the enemy is continuing to counter-attack unsuccessfully.

Artillery fire was the chief activity, although at places brilliant infantry operations are taking place, while machine gun nests make every open field a potential trap.

The number of prisoners has been increased by thousands, and a veritable mountain of captured and abandoned material is in possession of the Allies. Many of the guns had been damaged by the enemy before they abandoned them.

The British effort along the line near Rheims has been rewarded by a bag of prisoners and machine guns.

Commander of Forty-Second Division.

Gen. Brown, Who is leading the Forty-second Division, American Army, in the present fighting between the Marne and the Aisne rivers in France. Photograph was taken recently, after the division had taken its place in the front line.

ALL EXCEPT EIGHT OF MISSING CREW FOUND.

WASHINGTON, July 23.—All but eight of the forty-nine men reported missing after the sinking of the armored cruiser San Diego off Fire Island, N. Y., last Friday, have been accounted for, said an announcement tonight by the Navy Department. Further reports are expected to reduce this number and the officials hope that the only casualties will be the three men killed by the explosion.

The men still unaccounted for are: Clyde Baine, Lomeka, Cal. George W. Farin, Akron, Iowa. Leon Goodnow, Fairport, N. Y. Wilfrid Larson, Mammoth, Utah. Henry H. Law, White Plains, N. Y. Andrew Munson, St. Paul, Minn. Silas Watters, Galveston, Ga. James E. Compton, San Jose, Cal.

UTAH MAN ALIVE.

BALT LAKE CITY, July 23.—Wilfrid Larson of Mammoth, Utah, whom the Navy Department includes as among the eight still unaccounted for of the cruiser San Diego, is alive and well somewhere in the vicinity of New York, according to a telegram which was received by

his sister, Mrs. Arthur Stapley of Mammoth, Saturday.

OUR REAR-ADMIRALS DECORATED.

LONDON, July 23.—King George today decorated Rear-Admiral Hugh Rodman, U.S.N., as a knight commander of the Order of the Bath, and Rear-Admiral Joseph Strauss, U.S.N., a knight commander of the Order of St. Michael and St. George. The decoration took place on board the flagship of the grand fleet.

High Ground Won.

WASHINGTON, July 23.—A drenching downpour over the greater part of the southern battle front hindered the operations of both the Allies and the Germans last night and today. Farther north, however, French troops executed a remarkably brilliant minor operation between Moreuil and Montdidier, attacking and capturing three villages, around which some very heavy fighting occurred in March and April. They are Maillay-Rainval, Savilliers and Aubvillers, all situated on heights overlooking the Avre River. Their possession is of great importance.

FOCH'S MEN STILL GAIN.

Germans Struggle to Hold Line.

More Prisoners, Guns and War Stores are Captured by Our Armies.

French Advance Two Miles Near Amiens; Americans Take Jaulgonne.

THE Allied troops on the Soissons-Rheims salient continue to gain, both on the western side of the battle front and on the south along the Marne and toward Rheims, notwithstanding the increasing resistance of the Germans and the bad weather.

While the latest gains recorded are not as great, on the whole, as those of previous days, they nevertheless have added positions of strategic value to the Allied line for the further prosecution of the efforts to clear the territory of the enemy.

More prisoners, guns and war stores have fallen into the hands of the American, French and British troops.

The French to the northwest, midway between Soissons and Amiens, have delivered a blow against the German line which has been productive of excellent results.

TWO-MILE GAIN.

Striking on a front of about four miles, they penetrated about two miles and gained the heights dominating the valley of the Avre. Fifteen hundred Germans were captured by the French. The official French war office refers to this fighting as a local operation.

South of Soissons the drive of the Franco-American forces toward Fere-en-Tardenois has pushed further back the Germans on both sides of the Ourcq river. South of the river, notwithstanding fierce resistance, the Allied forces reached the railroad line between Armentieres and Conchy running southward to Chateau Thierry and pressed beyond it. This brings the French and American troops relatively to within seven miles of Fere-en-Tardenois and also gives them a dominating position for big gun play over the eastern section of the railway line running from Armentieres to Fere-en-Tardenois.

JAULOGONNE TAKEN.

On the northern bank of the Marne, the town of Jaulgonne, from which the Americans retreated during the German offensive, has been recaptured and left in the rear by the advancing troops. East of Jaulgonne, the French likewise have advanced their position on the north bank of the Marne and clung to their newly won positions.

Likewise southwest of Rheims, where the British are fighting with the French, strong enemy positions have been captured and the Allied line advanced nearly a mile. The reinforced German front here stubbornly contested the advance but the British and French gained the advantage and in addition to inflicting heavy casualties, took prisoners and some guns. The British alone captured 300 Germans.

COUNTER-ATTACKS.

The counter-attacks of the Germans continued to be repulsed with great violence and with heavy gun and machine-gun fire behind them. Where they are forced to give ground the Germans are leaving numerous machine gun nests in the open to harass their enemies and the Allies.

(Continued on Third Page.)

FRENCH BRILLIANTLY TAKE VILLAGES OF IMPORTANCE

WASHINGTON, July 23.—A drenching downpour over the greater part of the southern battle front hindered the operations of both the Allies and the Germans last night and today. Farther north, however, French troops executed a remarkably brilliant minor operation between Moreuil and Montdidier, attacking and capturing three villages, around which some very heavy fighting occurred in March and April. They are Maillay-Rainval, Savilliers and Aubvillers, all situated on heights overlooking the Avre River. Their possession is of great importance.

Germans' Desperate Resistance Fails to Stop Steady Pressure of Allied Advance

AMERICANS AND FRENCH HOLD GAINS EVERYWHERE

Prussian Shock Divisions Struggle Furiously to Check the Onrush of Pershing's Troops.

BY EDWIN L. JAMES.
[ATLANTIC CABLE-EXCLUSIVE DISPATCH.]
[Copyright.]

WITH THE AMERICAN ARMY, July 22, 4 p.m.—A battle of great intensity developed today north of Chateau Thierry, where the Germans have made a stand on the line running in front of Griselles, near St. Germain, eastward into the Bois de Barbillon. The Franco-American troops and the Germans have been attacking and counter-attacking since early this morning.

The Americans and French have yielded nowhere on the line held this morning. The battle is growing in intensity as this is written. After withdrawing before the Americans and French moved to ten kilometers beyond Chateau Thierry, while maintaining partially his line eastward to the north of Mont St. Pere, the Germans last night placed in position guns which have been silent for two days while being pulled back and, early this morning, began a violent artillery fire against the Franco-Americans between the Ourcq and the Marne.

For the first time since last Tuesday the enemy's heavy guns got to work in our back areas. The roads which the Americans and French are advancing are targets now not only from German artillery, but of daylight bombers dropping bombs from great altitudes.

OTHER SIDE.
But the other side of the picture is that our guns have been going to work as well as the Germans. In front of our positions east of the Chateau Thierry-Soissons road, and fifteen kilometers north of Chateau Thierry, are a series of hills forming an almost continuous ridge. The Germans have put their artillery and machine guns on the hills to the left of the ridge, and the Americans and French are giving the Germans a shell for shell. In front of our positions east of the Chateau Thierry-Soissons road, and fifteen kilometers north of Chateau Thierry, are a series of hills forming an almost continuous ridge. The Germans have put their artillery and machine guns on the hills to the left of the ridge, and the Americans and French are giving the Germans a shell for shell.

WRECKED BY HUN.
Shop after shop was strewn with wreckage where the Boche had pillaged and destroyed what could do him no good. Here was what had been a pretty little cafe, the inside filled with broken and empty bottles. We rummaged about and only one bottle was unemptied. It was filled with rum. Next door was a children's store with little shoes and baby linen in rank profusion, ruined beyond repair. I picked up a pair of baby shoes which I brought away. Just ahead by the City Hall, which was hit by a shell, the left side of the church was blown away. Just ahead by the City Hall, which was hit by a shell, the left side of the church was blown away.

THE YANKEE BOYS.
As we turned south to leave the city up the side of the road came a line of boys in brown going on the way through the city where they had helped to stop the Germans. They were a gay lot, full of pep, and they were shouting that the Germans had made a similar stand against the French and Americans south of Soissons. They were a gay lot, full of pep, and they were shouting that the Germans had made a similar stand against the French and Americans south of Soissons.

HUN LOSSES BIG.
The attack this morning netted us three villages along the Chateau Thierry-Soissons road south of Soissons. To the east the Germans also began heavy rifle and machine gun action last night, shelling the English and French back areas in the Bois de Roy and Bois de Coton, and also launching counter-attacks against those troops.

Today the news communicates say the Allied troops have lost none of their positions.

THE CONQUEROR.
The official estimate made today says that the Germans lost 100,000 men last week in the fighting at Soissons and Chateau Thierry. It is impossible to get a reliable estimate of Hun losses on the east of the front last week, but it is reasonable to suppose that an additional 50,000 may be added. His losses must be very heavy south of the Marne. The Allied prisoners taken last week exceeded 25,000. Many weeks of fighting of that sort would give the Allies a numerical superiority now on the western front. To the layman 150,000 men seems a great loss, but from the number of German dead I saw in one small piece of woods, one would judge by the application of the ratio to a 100-mile front that many more had been lost by the German high command.

There is evidence the German command is preparing the nation for the announcement of large casualties, for the semi-official statement from the German headquarters yesterday requested that the allies over the death of the German command was to spend as few lives as necessary in consideration of the size of the present battle, which in all its phases is perhaps the greatest of the war. I went to Chateau Thierry this morning a short time after the Germans left it.

All along the line now along those grim little forts, from behind which machine guns and rifles had spit fire, the Germans had broken and empty bottles. We rummaged about and only one bottle was unemptied. It was filled with rum. Next door was a children's store with little shoes and baby linen in rank profusion, ruined beyond repair. I picked up a pair of baby shoes which I brought away.

WAR OFFICE STATEMENTS.

[ATLANTIC CABLE AND A. P.]
PARIS, July 23.—Artillery activity along the battle front during the course of the night is all that is reported in the official statement issued by the War Office today.

North of Montdidier, in the Somme sector, a local operation, brilliantly conducted, permitted the French to occupy the villages of Mally-Rainval, Sauvillers and Aubvillers. The French took 350 prisoners.

The statement says the French only artillery actions were reported during the past night.

ALLIED ACTION IN RUSSIA NEAR.

Army of Half Million Men to Protect Commission.

Gen. Graves Named to Lead American Contingent.

Anti-Bolsheviki in Siberia Plead for Help.

[EXCLUSIVE DISPATCH.]
WASHINGTON, July 23.—While President Wilson is formulating his proclamation to put the world on notice that the American and Allied invasion of Russia is not for aggrandizement, territory or political extension members of several departments are busy on the details of the expedition.

It is expected that the President's long awaited word will be released some day this week, and that he will suggest that the armed forces of all the Allies, including the American troops, will be between 200,000 and 300,000 men. He has sought all along to have the Japanese troops engaged equal only the number of the other Allies, but the final outcome will show about as many Japanese fighters as those of the other nations combined.

While the War Department will say nothing if it can be definitely stated that Gen. Graves, formerly assistant Chief of Staff in Washington, will lead the expedition unless the present very definite lines are changed and the change would have to be authorized by the President.

SOMEONE ELSE.
Some time ago Gen. Graves was detached from the staff and was sent to one of the division headquarters in this country. While it is known that he has not been enthusiastic about American intervention in Russia, and for that matter all government representatives refuse to allow the use of the word intervention in their conversation or correspondence, it is said his selection is generally commended in military circles.

The Department of Commerce, Department of Labor and the Committee on Public Information will each send several scores of representatives on the commission that is to be convened by the military expedition.

Gen. William S. Graves has been placed in command of the Eighth Division with headquarters at San Francisco and that would tend to indicate that the eighth is to see service in Russia.

ALLIES' AID ASKED.
[ATLANTIC CABLE AND A. P.]
LONDON, July 23.—An undated dispatch from Vladivostok here today says the provisional government submitted to the Allies July 15 a request for joint military action.

"There is every hope," the dispatch, which was sent by Reuters' correspondent, adds, that the situation created by the movement of Gen. Horvath, the anti-Bolshevik leader, will be liquidated and the danger of civil war averted.

The situation in Eastern Siberia is said to be such that the Allies will be able to modification into uncommunications are quickly opened.

Reuters' dispatch from Tokyo July 19 says that a special session of the privy council, presided over by the Emperor, must that day consider the Siberian question and passed the government's measure in the premises.

A dispatch to the Associated Press from Tokyo July 13 said it was believed in political circles there that the Japanese government's reply to the proposal made by the United States relative to Siberia would be an intervention in Siberia would be dispatched to Washington that day.

The dispatch added that it was understood that the Japanese Emperor would accept the American proposal in every particular.

CHINA FAVORS AID.
[ATLANTIC CABLE AND A. P.]
A CANADIAN PACIFIC PORT July 23.—Paul S. Reisch, United States Minister to China, was aboard a liner which touched here today on its way from the Orient to an American port.

Sentiment in China is overwhelmingly in favor of joint Allied intervention in Siberia, Mr. Reisch asserted. He said China is split by political trouble between the south and northern sections, and as a result of the war, the nation is handicapped in participating actively in the war.

CHINA IN RUSSIA.
[ATLANTIC CABLE AND A. P.]
WASHINGTON, July 23.—Starvation as well as economic and financial disaster threatens Russia according to information reaching the state Department. Prospects for the 1918 harvest are described as very poor, and financial chaos is said to be almost complete.

Information furnished by the Russian Commissariat for Economics shows the number of fields under cultivation in 1918 compared with 1916 are 35 per cent. in the government of Yekaterinburg; 40 per cent. in the Voronezh, 53 per cent. in Kharkov, 28 per cent. in Saratov, 30 per cent. in Samara, and 34 per cent. in Kazan.

Preliminary aid from the American people for Russia soon is to be rushed on a special ship by the American Red Cross. It will include food as well as clothing and medical supplies.

UKRAINE SEEKS FRIEND.
[ATLANTIC CABLE AND A. P.]
AMSTERDAM, July 23.—The Ukrainian Foreign Minister has asked resumption of diplomatic relations with Rumania and also informed the Rumanian government, according to a Jassy dispatch by way of Bucharest and Berlin. Rumanian newspapers interpret this to mean that the Ukraine is recognizing the union of Bessarabia with Rumania.

SEVEN MEN MAY STRIKE SUNDAY.
[ATLANTIC CABLE AND A. P.]
CLEVELAND, July 23.—Union men on Great Lake freight and passenger steamers will be out on strike at midnight Sunday next, George Martin, local agent of the seamen's union, announced here today. Martin said he is acting under instruction of General Secretary Victor Olander, of the union.

PERSONS CORRESPONDING VISITING LOS ANGELES ARE PRIVILEGED TO HAVE THEIR MAIL ADDRESSED TO THE BUREAU.

Resorts

ANNOUNCEMENT to bathers

The Long Beach Bath House & Amusement Company is pleased to announce the completion of a new addition of 555 rooms to its mammoth Bath House, giving ample room to 5000 bathers per day. It is now unnecessary to wait in line for admission.

In the future the plunge will be open for the sale of bathing tickets until six o'clock P. M., each day instead of five o'clock as has been the custom in the past.

Every comfort and convenience is now afforded our numerous patrons and to the general public. This plunge is positively the most sanitary bath found in America. Bathers in increased numbers can be accommodated with facility and perfect safety.

We respectfully and cordially invite your patronage of the most magnificent bathing establishment on the Coast.

LONG BEACH BATH HOUSE & AMUSEMENT COMPANY.

COLD BROUGHT ON RHEUMATISM

Pain is the symptom of rheumatism that every victim recognizes but the physician appreciates that thin blood is a marked characteristic of the disease. Trying to cure rheumatism while the blood remains thin and weak is an almost impossible task because there is nothing to build on.

Mr. Harry L. Seaver of 69 Union street, Lynn, Mass., a carpenter, was subject to rheumatic attacks, and his experience will interest others who suffer in that way. Mr. Seaver says:

"I had rheumatism off and on for twenty years. My work at one time kept me out in all kinds of weather, and dampness and exposure caused my affliction. I had dull aching pains in the left shoulder and in the right knee. They were so severe at times that they made it impossible for me to rest at night. I suffered with headache, had dizzy spells and was nervous. My stomach was out of order. I learned of a person who had used Dr. Williams' Pink Pills as a treatment for rheumatism, and this decided me to try them. They helped me and relieved me of my pain. They have never failed in my case and I have recommended them to many others."

In no disease does the blood show more altering and thinning than in rheumatism. No permanent relief is possible until the blood is restored and the rheumatic poisons are cast out.

You can get Dr. Williams' Pink Pills at the nearest drug store wherever you may live, or they will be sent by mail, postpaid, upon receipt of price, five cents per box, six boxes for two dollars and a half by the Dr. Williams Medicine Co., Schenectady, N. Y. Send for the free pamphlet "Building Up the Blood."

CZECHS CHEER SEYDLER GOING.

Premier's Resignation is Received with Applause.

Czernin Mentioned as Head of Austrian Government.

Berlin Urges Kaiser Oppose Czernin's Appointment.

(BY ATLANTIC CABLE AND A. P.)
AMSTERDAM, July 23.—Loud cheers from the Czechs in the lower house of the Austrian Parliament greeted the announcement there that the entire Cabinet had resigned and that the resignations had been accepted by Emperor Charles, says a Vienna dispatch today. The announcement was made by the president of the chamber.

In accepting the resignation of the Seydler Cabinet Emperor Charles said he took such action because the Premier had pointed out that he could no longer command a majority in the lower house. The Emperor added, however, that the difficulties were entirely personal as between the Premier and a political party which had not assumed an attitude of opposition to the state, but on the contrary, would support the government in pursuing the same general policy.

CZERNIN MENTIONED.
(BY ATLANTIC CABLE AND A. P.)
LONDON, July 23.—According to reports from Vienna published in Berlin, it is probable that Emperor Charles will ask Count Czernin, the former Foreign Minister, to form a new Austrian Cabinet, says an exchange Telegram dispatch.

The conservative press of Berlin is urging the German government to give Austria a hint that Count Czernin would not be acceptable in Germany, in view of his last speech in which he intimated that Germany's war was no longer of a defensive character.

WEATHER ELSEWHERE.

Shifting Winds Relieve Chicago After Six Days of Heat.

(EXCLUSIVE DISPATCH.)
CHICAGO, July 23.—Before the wind shifted to the east and a lake breeze brought relief from the heat wave the toll of the heat stood six dead and sixteen prostrated. Two deaths were reported early today and eight prostrations. The mercury started climbing at daylight and by 10 a. m. had reached 84 degrees. Then the wind changed and there was a slight shift for a few hours. By 2 p. m. the thermometer had again 84. Clouds gathered then and late in the afternoon there was a short downpour. Bathing beaches proved the most popular refuge from the heat and they were crowded throughout the day. The high mark for the day was recorded at 3:30 p. m., and was 87. Hot weather prevails throughout the city region with local showers reported from many points.

Temperatures generally yesterday, as reported by the Los Angeles office of the United States Weather Bureau, were as follows:

	Max.	Min.
Athens	80	50

At least at one point the fighting was more nearly in the open than has been usual. With a minimum artillery fire by both sides the Americans advanced their skirmish line over yellow wheat fields, dotted with poppies, and through clumps of wood. It was Indian fighting modernized by machine gun work.

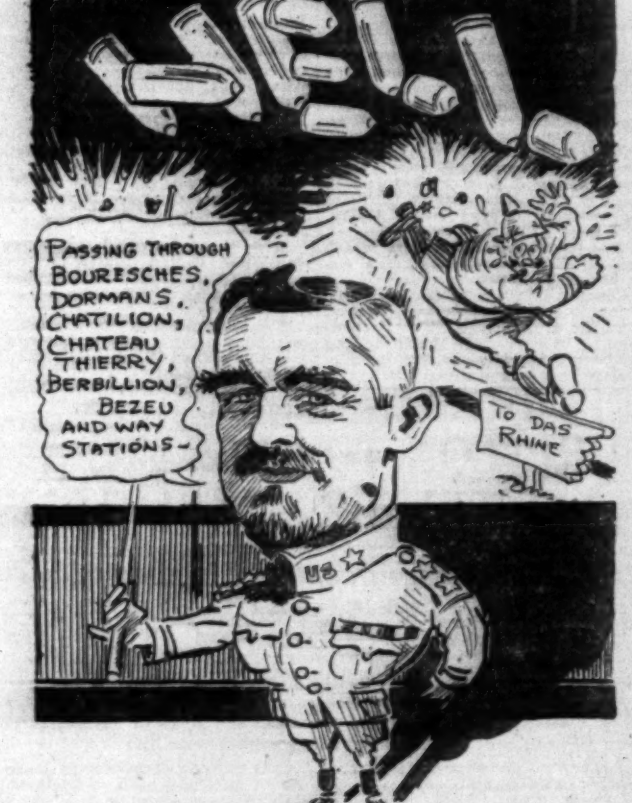

The Germans left on the field a great number of machine guns, many of which were captured and the entire personnel of a machine gun company tonight was swelling the already big list of prisoners taken by the Americans.

The American and French troops fighting south of Soissons have captured four German tanks, which were operating against them in conjunction with the German infantry. The Allied artillery immediately spotted the tanks as they came into action and quickly put four of them out of commission. Four others retreated.

Capitalist Made City Manager.
SAN JOSE, July 23.—Dr. W. C. Bailey, capitalist and chairman of the Santa Clara County War Work Council, was last night elected City Manager by the Common Council to take the place of Thomas H. Reed, resigned.

WARSHIPS SEEK GERMAN SEA RAIDER OFF MEXICO

Commerce Destroyer Reported in Southern Pacific; Shipping Warned.

(EXCLUSIVE DISPATCH.)
SAN DIEGO, July 23.—Warnings placed along the coast of the Pacific Coast here to merchant ships that an enemy raider is on the southern coast. Submarine chasers and other government craft and hydro-aeroplanes are reported to have been sent out to run down the raider. All shipping in this zone has been notified to observe the precautions of the submarine zone.

Although the port is open, the greatest precautions are being taken to protect it. Official advice regarding the raider were received at headquarters from a British Consul in Mexico and fishermen have brought in important information regarding German activities south of here.

U-BOAT SINKS SCHOONER.
(BY A. P. NIGHT WIRE.)
KENEKUPORT (M. J.) July 23.—Four men landed in a dory at Cape Porpoise today and reported that their fishing schooner, the Robert and Richard of Gloucester, had been sunk by a German submarine on Cashe Bank, sixty miles southeast of Cape Porpoise, at 10:30 o'clock yesterday morning. Other dories were coming in behind them, they said. The schooner had just stocked up with halibut for the Boston market.

The men stated that the schooner had been destroyed by a bomb. The submarine, they stated, came out of the water a few hundred yards distant and sent a shell screaming over their bow. The crew promptly swung the schooner up into the wind and took to their boats. Then the raider sent a boat aboard the schooner, apparently took only her papers.

Growing Movement.
PORTLAND (M. J.) July 23.—A large four-masted schooner named here, which was towed by the wrecking tug today, her name could not be ascertained, but it is believed that she was not in distress and was being towed to a port to finish repairs.

When she was first sighted, it was believed that she was being towed to a port to finish repairs. When she was first sighted, it was believed that she was being towed to a port to finish repairs. When she was first sighted, it was believed that she was being towed to a port to finish repairs.

News of the World

Commerce Destroyer Reported in Southern Pacific; Shipping Warned.

(EXCLUSIVE DISPATCH.)
SAN DIEGO, July 23.—Warnings placed along the coast of the Pacific Coast here to merchant ships that an enemy raider is on the southern coast. Submarine chasers and other government craft and hydro-aeroplanes are reported to have been sent out to run down the raider. All shipping in this zone has been notified to observe the precautions of the submarine zone.

Although the port is open, the greatest precautions are being taken to protect it. Official advice regarding the raider were received at headquarters from a British Consul in Mexico and fishermen have brought in important information regarding German activities south of here.

U-BOAT SINKS SCHOONER.
(BY A. P. NIGHT WIRE.)
KENEKUPORT (M. J.) July 23.—Four men landed in a dory at Cape Porpoise today and reported that their fishing schooner, the Robert and Richard of Gloucester, had been sunk by a German submarine on Cashe Bank, sixty miles southeast of Cape Porpoise, at 10:30 o'clock yesterday morning. Other dories were coming in behind them, they said. The schooner had just stocked up with halibut for the Boston market.

The men stated that the schooner had been destroyed by a bomb. The submarine, they stated, came out of the water a few hundred yards distant and

KEEPING AFTER THE USURY MEN.

Flying Squadron Gets Names in Southern Counties.

League will be Kept Going Till After Election.

Money Still Needed to Pay Clerical Expenses.

The loan shark was swatted from Whittier to San Diego yesterday by a flying squadron of members of the Anti-Usury League, who left Los Angeles on a three days' tour of the southern counties to land 10,000 signatures on more to the anti-loan shark petition. The party consists of J. P. Steele, managing director of the league; William C. Keim, Hale Brown and David S. B. Starnard.

The first stop was made at Whittier, then at Fullerton, Anaheim, Santa Ana, Oceanside, and finally San Diego. At each of the stops blank petitions were left for signatures with the city clerks, local editors and prominent citizens, who had expressed interest in the fight. These petitions will be filed with the local city clerks on or before August 1.

The party will begin work in San Diego today and continue through tomorrow, securing signatures and filing them with the City Clerk before starting back to Los Angeles. A local committee will carry on the work until August 1.

Officers of the Anti-Usury League have decided to keep the league going until after the November election.

Safe and Patriotic

It is the part of patriotism as well as good sense to keep your money safe and easily available. We offer our 5% Investment Certificates that have proved safe for thirty years. You can invest any multiple of \$100 in them and know that all of it can be withdrawn with interest in full any time after the first year. Investigate them. Call or write.

State Mutual
Building & Loan Association
722 SOUTH SPRING ST.

TO REGISTER IS PATRIOTIC DUTY.

Saturday, July Twenty-seven, Last Day for this Necessary Step.

If democracy is worth fighting for it is worth voting for. No one can vote at the primary election, August 27, unless he or she has registered this year from the precinct of residence, or register by Saturday, July 27.

No one can vote at the primary election for any candidate for Governor, Lieutenant-Governor, Senator, Assemblyman or Congressman unless the party affiliation is stated in the affidavit of registration. Those who did not state such affiliation when they registered can do so now by going to any deputy registrar and making a supplementary affidavit. Saturday, July 27, is the last day to do this, or to register.

Those who can register and do not are not 100 per cent. Americans.

Even after the proposed law is on the ballot, the voters will have to be informed by speakers and by advertising why they should vote for it. The loan sharks already are preparing a campaign to defeat the bill at the coming election, it is stated.

Money is badly needed to carry this fight through to victory. Clerical expenses of over \$1000 in connection with gathering and listing the names remain unpaid. Contributions should be sent to Walter J. Story, 223 Merchants Trust Building.

NEGRO WOMEN'S CLUBS CONVE.

State Federation Delegates Open Annual Sessions.

Patriotism is Keynote of the First Day's Programme.

Four Hundred Delegates are in Attendance.

The California State Federation of Colored Women's Clubs opened its twelfth annual convention yesterday morning at the First African Methodist Episcopal Church, at Eighth and Towne avenues, with a business meeting, and the singing of "In the Ranks," the State federation song, written by Mrs. Eva Carter Buckner and sung to the tune of "America."

In the afternoon an address of welcome from the Mayor was read, and Mrs. Jack White, third vice-president, made a response. "Woman's Share in the Fight for Democracy" was the subject of a paper read by Miss Fanny Coppel Club of Oakland.

The delegates and visitors were given a public reception last night at the church. Mrs. Hettie B. Tighman of Oakland, the State president of the federation, made an address, and talks by Miss Nannie Burroughs of Washington, D. C., and by Noah Thompson of this city, were also heard.

Mrs. Lulu Slaughter of Los Angeles, president of the Southern California branches, is being assisted by prominent local colored citizens to make the visit of the 400 delegates a pleasant and profitable one.

Today will be known as Day Nursery Day, and the programme will include a paper on "Psychology in the Home," a talk on domestic science, a paper on "Our Boys in France" and another on the "Club Improvement of Womanhood."

Tomorrow, the last day of the convention, is dedicated to the Children's Home and Day Nursery of Oakland. It will feature papers and discussions on "The Best Way to Develop Strong Character in Girls" and "What Has the Colored Woman of California Done with Her Vote?" Friday evening a grand concert will be given in honor of the visitors.

GIVEN DIVORCE.

Daisy D. Russell was granted a decree of divorce from Edward E. Russell, an automobile supply salesman, by Judge Finlayson yesterday on the ground of desertion. The court ordered Mr. Russell to pay \$10 a month for her support.

STREET OPENING GIVEN IMPETUS.

Broadway Improvement Project in Hands of District Federal Board.

City Attorney Stephens yesterday received word from the Capital Issues Committee at Washington that the proposition of opening and widening Broadway between Tenth and Pico streets had been referred to the District Committee at San Francisco. This was good news to persons interested in the project, as the committee will take more interest in it than the men at Washington.

J. F. Sartori of this city is a member of the District Committee and knows the subject thoroughly. Other members of the committee are well acquainted with the needs of Los Angeles, too.

CONGRESSMAN COMES HOME THIS MORNING.

Capt. Osborne to be Guest of Chamber of Commerce at Luncheon Today.

Personal friends of Congressman Henry C. Osborne will join in his official welcome home this morning at 9:35 o'clock at the Southern Pacific depot. Congressman Osborne is on his way to Los Angeles from Sacramento and upon his arrival he will be greeted by a large delegation from the chamber. At noon today he will be guest of honor at a chamber luncheon at the Jonathan Club.

Capt. Osborne has been asked to make a talk at the luncheon on "Washington in War Times" and is believed that this subject will be of particular interest to the business men, as the Los Angeles representative has been active in all war measures since the declaration of war. The harbor appropriation, the aviation school at Riverside, the submarine enterprise in the national capital, have found him an earnest advocate.

Although Capt. Osborne comes home on the recess, he will be busy on government matters practically all of his time. He will make a brief stop at the harbor at an early date and will do a large amount of Congressional committee work while in Southern California.

The following county committee has been named by the chamber for the reception and luncheon:

Oscar, Maynard McFie, William Mead, L. D. Sals, F. Q. Story, S. L. Weaver, W. A. Parker, R. N. Bull, H. W. Frank, Edw. L. Kaplan, D. F. McGarry, R. W. Fritham, Robert Wankowski, W. D. Longyear, J. M. Schneider, Jr., Ralph C. Hamlin, Shannon Crandall, Chester W. Thompson, E. B. Rivers, Walter Lindley, A. J. Wallace, Mayor F. T. Woodman, W. H. Harrison, Arthur Kinney, M. N. Avery, Marco H. Hellman, E. R. Young, E. H. Seaver, Milo Baker, Frank R. Hart, T. E. Gibbon, John Llewellyn, John Mott, C. M. Gordon, Marshall Stimson, Oscar Lawler, Walter Raymond, Albert M. Stephens, Leo Jacoby, John T. Gaffy, D. C. Marver, J. A. Aubrey, A. P. Fleming, M. C. Neuner, E. A. Geisler, W. G. Hunt, George Rice, Jr., W. Ross Campbell, N. N. Hamaker, S. M. Haskins, J. L. Quinn and Nathan Newby.

ACTING ASPIRATIONS ARE COSTLY TO WOMAN

SAYS SHE PAID MAN BIG SUM TO BE MADE ADDRESS; FAILS TO GET JOB.

How Mrs. Marie Hansen, who is living apart from her husband, went to a safe deposit box, withdrew an envelope containing \$4000 and gave it to Joseph K. Gorham to get her in the moving-picture game, was told before a jury in Judge Houser's court yesterday. Mrs. Hansen, a well-known actress, and her husband, who is a well-known actor, proved an interesting albeit an inexperienced witness. She said that Mr. Gorham was waiting for her in the alley back of the Lankershim Hotel. He was in his roadster.

She says that she cautioned her not to tell anyone about giving him the money. At divers times, she said, she gave him sums of money, the total approximating \$5000. Mr. Gorham told her, she declared, that he was in a position to make her savings in the film business and that the returns would be large. When nothing came of turning the money to him, she fled out.

A grand jury indictment was returned against Mr. Gorham growing out of this charge. The case was dismissed in court because, it is said, the evidence was not deemed sufficient. The trial Judge, Judge Houser will be concluded today.

From Government Duty.

FOUR-MINUTE MEN WHO SEEK OFFICE RELIEVED.

TWELVE local "Four-Minute Men" were yesterday granted furloughs as members of the Los Angeles Four-Minute organization until November 6. This is in compliance with orders from Washington headquarters requesting that all men running for political office sever their connection with the "Four-Minute Men."

Those affected by the order and the office they are candidates for are: Russ Avery, Superior Judge; C. B. Conlin, Congress; C. M. Ferguson, State Assembly; M. M. Ferguson,

State Assembly; W. B. Harrison, State Assembly; Walter G. Lincoln, Justice of the Peace; Paul J. McCormick, Judge Superior Court; H. J. Palmer, Justice of the Peace; W. J. Palmer, police judge; F. M. Roberts, State Assembly; A. Walton, Sheriff, and Charles W. Lyon, State Senator.

At the weekly meeting of the Four-Minute Men last night, Marshall Stimson said concerning the political candidates: "They have been ordered to return their slides, cease wearing the button and requested to refrain from alluding to their connection to the organization in campaigning, unless their patriotism is assailed."

Other speakers at the meeting were: William Cowan, State director of the "Four-Minute Men," and C. C. Moore of San Francisco, newly appointed director of the State Council of Defense.

OIL CASE CONTINUED.

Due to a congested court calendar, Justice Hinshaw yesterday continued until August 3 the preliminary hearing in the case of the Red Star Petroleum Company, accused of filing false reports to conceal the discovery of oil in Baldwin well No. 4 in the Montebello field.

PLANS DEFENSE COUNCIL CHANGE

State Director Says County Body will be Larger.

New Members will be Named from Headquarters.

Centralized Authority will be New Programme.

The State Council of Defense, with headquarters at San Francisco, will fill the vacancies on the Los Angeles County Council of Defense caused by the resignations yesterday of Judge Wellborn (chairman), Sheriff Cline, Dr. Jessie A. Russell and Supervisor Hamilton. Dist. Atty. Woolwine took part at the meeting at which this was decided, but it was said that his resignation will be tendered as soon as he arrives from the north. The members of the council who remain are J. Ross Clark, J. O. Koepfl, F. E. Trask and C. C. Moore.

C. C. Moore, director of the State council, who attended the meeting of the County Council of Defense, this being his first visit to Los Angeles since his appointment, stated that the new County Council of Defense will probably be enlarged to thirty members. He said men will not be selected at their convenience, and if they do not accept they will be commanded. The number of those who have declined to accept posts elsewhere has been negligible. He declared the chairman must devote his entire time to the council, he said.

Mr. Moore spoke to the members of the County Council of Defense in the chambers of Presiding Judge Wellborn, who was chairman of the board. He explained the urgent necessity of the various councils organizing, and detailed the comprehensive plans for carrying on the work.

TO WORK TOGETHER.

"We must get together," he declared. "The ideal thing would be to have headquarters in every county; one large building to house every war activity. The State Council of Defense is the only central power in the State. It has great responsibilities. The object of the various councils is to aid and assist. The State council in San Francisco, will occupy large quarters in the Ferry Building. An official war cabinet will be organized, composed of thirty members. Not one of the first eighteen asked to join declined, Mr. Moore stated.

"Every county council must do its full duty," he said. "Unless it does war activity will be tied up. The council will report under the new plan to the State council, which in turn sends the reports to President Wilson. The cabinet is the head of all of the activities. There will be subcommittees on the Mexican labor question, and a plan is under way to finance tenant farmers and for other large measures. When a farmer has not the money to buy implements, his note will be endorsed and the banks will loan the money. The country is depending on the farmers, and one of the objects of the new plan of organization is to assist him financially."

PLACE FOR WOMEN.

Mostly the women outstrip the men in defense council work, Mr. Moore said. "They have complete organization in every county; they have rendered help to every activity; they have been absolutely wonderful," he declared. "It is now proposed to enlarge the county councils of defense and to place three women on each council. It is the aim to make every county council of defense a dominating center. We have seen enough in this war to decide that we must centralize authority."

He said that the question of asking candidates to resign bothered the State council a great deal. It was determined, however, that it was to the best interests of the State council that they should resign, but there was nothing to prevent them from becoming efficient assistants to the county councils. Their disqualifications were removed.

W. V. Cowan, secretary of the State Council of Defense, who was present at the meeting, stated that he had appointed Marshall Stimson of this city as acting director of the four-minute men.

Yesterday afternoon Mr. Moore attended a meeting of the women's committee at No. 17 South Hill street and last night he was the principal speaker at a meeting of the Los Angeles County Council of Defense at the Courthouse. This noon he will be the guest at a luncheon given by the women's committee at the Alexandria.

Mrs. H. A. Cable, chairman of the Women's Committee of the Council of National and State Defense, will preside. Three-minute speeches will be made by Mrs. Ed Lyman (Red Cross chairman), Mrs. Ed Lyman (Red Cross chairman), Mrs. Josiah Evans Cowles, Judge Wellborn, Marshall Stimson (chairman of four-minute men here) and Mrs. Mathew Robertson.

Are You the Dupe of a Patriotick?

A PATRIOTICK is a swindle by which your patriotism is twisted to serve the selfish interests of another. It usually takes the form of a spreading rumor that a certain brand of goods is owned or controlled by Alien Enemies. True patriots do not want to buy such goods and in times like these a lie has a thousand lives and travels on broad, fleet wings. The patriotick is not a new trick. Dozens of loyal American, French and British firms suffered from it, even before America entered the war.

We and our customers are victims of it today. We can no longer ignore the fact that thousands of druggists and dentists have been told, and are innocently passing along the story, that Pebecco Tooth Paste is an Alien Enemy product.

The story is untrue. Its only possible foundation is the fact that the formula for Pebecco was originated years ago in the laboratory of a Hamburg scientist.

Pebecco has been made in New York City since 1903. Every share of Lehn & Fink stock and every dollar's worth of bonds are owned by American citizens.

Sole license for the manufacture of Pebecco has been granted to Lehn & Fink by the United States Federal Trade Commission.

All the officers and directors of Lehn & Fink are American citizens, and only American capital is used. Lehn & Fink is not subsidized by nor connected with any other concern, American or Foreign.

Don't be the dupe of the patriotickster.

Pebecco Tooth Paste is for sale by all druggists
Manufactured by LEHN & FINK, Inc.,

Swift & Company, U. S. A.

Local Branch, 922-28 E. First St., Los Angeles, Cal.

Swift & Company requires all beef to be sold during the week of arrival, and the average of sales is within five days.

Any delay along the above journey means deterioration in the meat and loss to the packer.

Upon arrival at the branch distributing house, it is unloaded into a "cooler", and placed on sale.

Fresh beef for domestic markets goes from stockyards to retail stores within a period of about two weeks. Although chilled, this meat is not frozen; hence it cannot be stored for a rise in price.

A steer is dressed usually within twenty-four hours after purchase by the packer. The beef is held in a cooler at the packing house, at a temperature a little above freezing, for about three days.

It is then loaded into a refrigerator car, where a similar temperature is maintained, and is in transit to market on an average of about six days.

Miss Margaret Trimble.

Who is to wed Baron Harold de Ropp. Baroness Alfred de Ropp, mother of Mr. de Ropp, gave a charming dinner in her honor a week ago last Friday. (Photo by Steckel for National Illustrated Syndicate. Copyrighted.)

The French mission expect to leave shortly, with the Fortieth Division at Camp Kearny for the battlefields of France, the American division being made up of men they have trained.

Gone to Mexico. Senor and Senora Jesus Almada, with their daughters, Misses Aurora and Celia Almada, have joined their son-in-law and daughter, Mr. and Mrs. Manuel Moreno (Laura Almada) and have gone to the city of Mexico.

Military Dance. Officers and men of the army and navy on Saturday evening will be guests of honor at a dance at which members of the Ebell Club will entertain at the clubhouse on Eighth and Figueroa streets.

For Young Couples. Providing a merry time for a group of friends, Francis McConnell entertained yesterday in honor of his small cousin, Miss Dorothy and Bernadette McConnell, at the home of the girls' aunt, Mrs. M. R. Gish.

Miss Margaret Calhoun Marries. An interesting social event of last week was the wedding, Friday evening, of Miss Margaret Calhoun, daughter of Mr. and Mrs. George Calhoun, to Mr. George McCool of Kansas City.

Personal. Mrs. Walter Jarvis Barlow has returned from Boston, New York and other parts of the East, where she has been visiting the past two months. While gone she visited her daughter, Miss Katherine Barlow, who is spending the summer on the coast of Maine and her son, Jarvis, who is in a training camp near New York.

IN STORES AND HOMES.

NOVELTIES, IDEAS AND PRACTICAL SUGGESTIONS.

By Olive Gray.

Up-to-Date:

Fringe on everything from handbags to hats; from gowns to gloves.

Any kind of fringe, from saddlers' silk to ostrich plumes; from cotton to silk.

To have the crown of your straw hat in one color and the brim another. Brown crowns and natural Leghorn brims are a popular combination.

Shoes, hose and hats in one of the new shades of brown, to wear with gowns or suits of any shade.

Gingham, gingham, gingham, for every purpose and for almost all occasions.

Whether the warp and wool silk or cotton it matters not, so the gingham effect is produced.

Now is the Time to Buy:

Bedding for next winter when the cost will be far more than now, according to all merchandise predictions.

The vase of that new brilliant glass while the variety in shape is obtainable. A tall piece of that exquisite amber, illuminated by a shadowy corner of the living-room.

A set of those "straw-spoons" for simple iced tea or bubble gum, from the tall glass, at the porch tea.

The remnant which will make the Russian blouse or smock for wear with the white skirt, thus extending the summer wardrobe in Hooverish fashion.

A Porch Vacation.

"I'm taking my vacation now," said Adeline, the other day, over the phone. "You mean you are about to go away," I asked. "I am away," she replied. "I am away," she replied. "I am away," she replied.

"I am away," she replied. "I am away," she replied. "I am away," she replied.

is this season so colorful! There's no doubt that color really does raise the spirits—when it is the right color.

And it is especially good that this season, I should have so many cheerful tints in wearing apparel. And by the way, how our American dyes are proving themselves! Another of the German myths exploded—that we would never be able to produce lasting or varied dyes.

Shadows Fashion.

White lawn and lingerie collars are very charming on linen frocks.

Victorian dresses have returned on some of the newer summer frocks.

Some stridles are made of narrow black velvet ribbon ending in tassels.

A sports coat of natural camel-hair cloth is splendid for many occasions.

White orange-blossoms are colored in rose and belted with blue faille.

Simple bright volles are among the most charming of inexpensive dresses.

A very novel sports dress comes from the pen of Frances Marion.

WASSIAC OUT
ON TRIAL TRIP.

Members of City Council are
Guests of Officers of Har-
bor Shipbuilders.

[LOCAL CORRESPONDENCE.]

LOS ANGELES HARBOR.

July 23.—Bearing on board a
party of members of the City
Council and other officials as
the guests of the officers of
the Los Angeles Shipbuilding
and Dry Dock Company and
the Emergency Fleet Corpora-
tion, the steamship Wassiac
went out on her trial trip today.

The Wassiac is the fourth
vessel turned out at the plant
of the Los Angeles Shipbuilding
and Dry Dock Company and
was turned over to the
government today. The first
three which were turned over
since the first of June were
the Accomac, Wakulla and the
Wampum, the last-named
having left here yesterday on
her maiden voyage.

DEPOT BRIGADE NUCLEUS ORGANIZED AT KEARNY.

Hundred Stragglers in the June Draft Arrive at Camp.

(EXCLUSIVE DISPATCH.)
CAMP KEARNY, July 23.—Organization of the nucleus of a depot brigade began today with the transfer of the activities of the development battalion from its former cantonment to the camp formerly used as a recruit receiving station. The unit already has a strength of 2000 men. It is commanded by Maj. Arthur Ball, and officers coming back to the United States from the American Expeditionary Forces in France for purposes of instruction are being attached to this unit.
Practically every camp in the United States has a depot brigade, but this is the first time such an organization has been started here. The quarters of the battalion was the scene today of much activity. About 100 stragglers in the June draft arrived and were given the many physical and mental tests. In addition about forty volunteer recruits arrived. All of these men were given the inoculation for typhoid and paratyphoid and inducted into the service. During the last few days voluntary enlistments have been greatly accelerated, probably because of the realization on the part of those over draft age that the time has come for them to cast their weight in the big drive to be started by the Allies on the Hungarian front.
The old recruit camp, which has been a quarantine station, was today moved to the quarters of the development battalion. This battalion will be a sort of a receiving and departure station for men in special branches.
TEACHERS FROM FRANCE.
Capt. Edward E. Vicary, formerly of the One Hundred and Forty-third Field Artillery, is acting adjutant of the battalion and under his care will come many of the new recruits to come to this camp. Two officers who have seen more than six months' service in France and have been attached to this unit for instruction purposes are Lieut. Fer-

GAS STOVE AS AN INTERLUDE.

Music Master's Wife Uses It to Emphasize Affinity Charge, He Says.

The divorce suit of Prof. Gray F. Sampson, a Pasadena music teacher, against Ethel L. Sampson, was on trial before Judge Taft yesterday. He charged that his wife is jealous of his women pupils. When he returned home from giving music lessons on one occasion he said that his wife remarked: "So you have been out with an affinity, have you?" She emphasized her words by picking up a small gas stove and throwing it at his head.
In her cross-examination Mrs. Sampson asked for a decree. A Pasadena policeman related an incident in which he testified he heard a woman call Prof. Sampson an endearing word, but the comment was made while the woman's husband was present. The case was not concluded.

gus McCree and Lieut. R. P. Jarvis, an infantry officer. McCree was married shortly after arriving back to the United States. He was with the First Division.
The Fortieth Division, according to announcement today by Maj. Gen. Strong, is above maximum strength. Regiments carry as high as 200 over maximum and other units in proportion to their strength. All recruits now go to the development battalions. More than 400 men who were in the June draft, but late for various reasons in arriving, were distributed about the division today.

Heretofore the development battalion was more or less a receiving station for men not physically fit for service abroad, but today it took on the aspect of a different organization. Previously the men who left this camp for France, of which several thousand are already in the battle of the Marne, "cleared" through the quarantine camp.
Much credit for the wonderful development in the training of the 18-000 men who have recently joined the division was given to the officers and noncommissioned officers. Maj. Gen. Strong said that if the division had not had such efficient noncoms, as well as officers, the thousands of men could not have been whipped into shape in such rapid fashion.

COMMENDS OFFICERS.
"We have a fine lot of noncommissioned officers," said Gen. Strong. "They have taken hold of the new men and worked hard and long to make them good soldiers in the shortest possible time. Practically all of the new men of the One Hundred and Fifty-ninth Infantry have qualified in gas defense instruction and the men who arrived here only last week are already on the target range. It is probably due to the fact that many of these men lived in States where they were used to firearms, that they should acquire such efficiency in so short a time. They all seem to be good shots. But no matter whether they are or not, they take to their work with a will that shows the spirit with which they accept military service."
The naturalization of several hundred men began today by their examination by the judges of the San Diego county Superior Court sitting here. It is expected that the process will be faster than ever before.

Court sessions for the final steps in naturalizing these men will begin Thursday when judges of the San Diego county Superior Court will sit here. It is expected that the process will be faster than ever before.

MEMBER OF ANCIENT DANE FAMILY DEAD.
A large number of employees of the Southern California Edison Company and of the local Danish colony, including Consul William Spendrup, attended the funeral yesterday of Frederick Flemming, whose death occurred last Saturday. Mr. Flemming was employed fifteen years by the Edison company and was highly esteemed by his friends and associates. He was a member of an old Danish family of prominence and after the conclusion of the war his ashes will be transferred to the ancestral family vault in Denmark. He leaves a widow and one son, N. Mogens Flemming, who left Los Angeles yesterday to serve in the National Army.

MAY DEMAND HIGHER RATE.
The Public Service Commission yesterday received a recommendation from Business Agent Haswell that the extension rate for six-inch pipe in the San Fernando Valley irrigation district be increased from 50 cents to 75 cents per foot because of the increased cost of pipe and labor. The matter was referred to the committee of the whole for consideration.

Amid Cheers.
THREE HUNDRED MORE START TRIP TO BERLIN.

ESCORTED through the streets of the city by detachments of firemen and police, 300 local draft men entrained yesterday from the Arcade Depot for Camp Lewis. Meeting in front of the City Hall shortly before noon, the men marched to the depot, where they were met by a tremendous crowd of relatives and friends.

Mounted police headed the procession. Then came Fire Chief Eley and the Firemen's Band, followed by a large detachment of firemen, who preceded the Hamburger's Bugle and Drum Corps. Thousands of noonday pedestrians lined the sidewalks to cheer the men, and the women of the city, as they passed several automobiles.

At the depot a committee from the Soldiers' and Sailors' Welfare Commission, headed by Chairman W. Blanchard, presented the men with eatables, reading matter and cigars. The women's committee was in charge of Mrs. Paul J. McCormick and Mrs. W. C. Tyler.

Of the men who left yesterday, 117 were sent by board No. 17. This will also furnish forty-nine class A-1 colored men the last of the city's quota to Camp Lewis between August 1 and 5.

Bridge carpenters, caulkers, concrete foremen and other craftsmen will be required to entrain on Monday for Camp Forest, Lyle, Ga., according to the notification received yesterday by the district exemption board from the office of the Adjutant-General. These men are in the limited service classification.

L.W.W. AID IN MAN'S ESCAPE?

No Trace Yet of Felon Who Gave Officer Slip.

Broke Away While Patrolman was Buying Cigar.

Long Criminal Career has a New Chapter.

That Paul Sokol, L.W.W. member, and many times a felon, was aided by the L.W.W. in making his escape while on the way to San Quentin, is the opinion of attaches of the Sheriff's office. Up to a late hour last night no word had reached here from Richmond of the recapture of the convict following his spectacular escape there early yesterday while his guard, Patrolman Krug, was in the act of purchasing a cigar in the Southern Pacific Station.

Krug's back was turned only for a moment when the desperate convict, who has figured in other escapes, made a dash for liberty toward the Richmond station. According to accounts received here, Krug shot at him several times without success.

Sokol was considered by the police to be one of the most desperate criminals apprehended in Southern California. He left here Monday night in charge of Krug, following a sentence of from one to ten years imposed by Judge Craig for carrying a weapon after having been previously convicted of a felony.

JUST AS PROTECTORS.
Sokol was arrested on May 28 at Second and Main streets, and when searched a billy, a sap and a black-jack were found on him. He explained these articles by saying that he carried them to protect himself from the L.W.W., who had threatened to kill him if he would not engage in sabotage.

Following a long career of crime in the East, Sokol reached Yuba county, California, type of criminal, according to police records. He was arrested there and later released from a charge of burglary. He went to Paso Robles, where he fell in with an L.W.W. gang and joined the ranks of the "red" party.

Judge Craig sentenced him to San Quentin on the strength of reports of the probation officer that he was a dangerous type of criminal, "usually found engaged in the dissemination of German propaganda, operations and activities of an L.W.W., or an anarchist."

CRIMINAL RECORD.
With the assistance of finger prints and pictures the police found that Sokol was released from Folsom prison early this year. He admitted this and a further investigation revealed that he had been in prison five times on burglary charges.

He came to the United States from Russia, presumably as a political refugee at 13, and started his career of crime by looting an exclusive and Harold Bacon, Sales of motor which he was sent to the Emira Reform School. Released from there, he was in Auburn prison before 21 for a jewelry robbery. He next turned up as an inmate of Donmore Institute, New York, as a criminal defective, following a burglary and sent to jail. He escaped by a thrilling leap from the second story of the jail and next appeared in California after a gap of several years.

Elenita Sepulveda, Who will entertain with Spanish dances at the Red Cross taborium this afternoon.

RED CROSS AFFAIRS.

Directors Appointed.

At a meeting of the directors of the Los Angeles Chapter of the Red Cross yesterday, the following appointments were made: Oscar Lawler, director of bureau of laws; Mrs. Dean Mason, director of the bureau of navy auxiliary; Mrs. Fred Safford, director of the auxiliary and branch operations; Miss Louise Barker, director of the bureau of service; Mr. Leigh Garney, assistant director of the bureau of supplies; Shirley Messers, in charge of the Committee on Dietetics; during the illness of Mr. Whittemore; Mr. S. N. Clark, assistant to the chairman of the speaker's desk.

Dance at Tea Room.
An attractive feature of the entertainment at the Red Cross taborium at Eighth and Alvarado streets this afternoon will be dancing by Elenita Sepulveda. Miss Sepulveda's repertoire is extensive, but her graceful Spanish dances are considered most pleasing.

Children's Carnival.
A carnival was given last Friday evening at the home of Mr. and Mrs. C. E. Fischer, No. 843 Irolo street, by the following children: Raymond and Willard Fisher, Carl and Donald, Mary and Helen Bishop, Jack Dabney, Lois Crane and Harold Bacon. Sales of corn, lemonade and candy realized \$13 for the Belgian Baby Relief Fund.

CARTER BACK ON JOB.
Collector of Internal Revenue Returns to Work After Month's Illness.

Collector of Internal Revenue Carter returned to his office for a short time yesterday, after a severe attack of nervous prostration, which has kept him confined for the last month. The illness arose from too close application to his official duties during the past few weeks.

It is a matter for congratulation with the collector that his office collections for the month of June are less than \$1,000,000 in income tax, and it is estimated that there is less than \$1,000,000 yet to be secured through the distraint warrants.

For a short preliminary training course and from there, overseas, where they will be trained in handling the big tanks.

In addition to real fighting men, a limited number of cooks, auto drivers, mechanics and blacksmiths are sought. The recruiting headquarters are located in room 411 H. W. Hellman Building, and the men must be obtained by the 31st inst.

GRANTS NON-SUIT.
Judge Houser yesterday granted a non-suit in the action brought by Louis Pons, a carpenter, who demanded damages from the Southern Pacific as the result of an accident to the train he was on in Mexico, near Mexicali. The non-suit was granted on the ground of lack of jurisdiction.

LABORER HURT IN FALL.
Pete Padillo, a laborer employed by the Kuback Contracting Company, and living at No. 1022 Sunset boulevard, was probably fatally injured yesterday when he fell off a scaffold at No. 624 South Spring street, where he was working remodeling the building. He was taken to the Receiving Hospital suffering from a fractured skull.

REAL MARKET FOR WAR FETE.

Tomatoes, Lettuce "an' Sich" to be Sold at Carnival.

Girl Farmers to Feature New York Store Affair.

Festival de Luxe is Planned for Red Cross.

BY OLIVE GRAY.

Girl farmers will sell the products of their war gardens at the Red Cross carnival in charge of the New York Store, at the Alvarado tea house next Saturday. Pretty girls clad in the costume said to be most potent in wooing the growths of the soil from out their hidden depths, will hold a market, where the public may purchase the "fresh laid" potato, the just curled lettuce, "permanent wave guaranteed"—the real tomato—without interference of middlemen. The dream of the "back-to-the-lander" will here be fulfilled, and fresh salad stuff will grace the tables of connoisseurs on Sunday next, while the Red Cross funds will be by their cost be metted.

The selling of green goods will not be the only mercantile art practically demonstrated at that carnival. Monroe Salisbury and J. Warren Kerrigan will distribute, from a Wild West bar, soft drinks for hard cash. Oh, what thirsts will there be slaked!
The New York Store's carnival will be a whirlwind of fun, from beginning to end; from the Liberty Bond sales and the country store, to the athletic games and sports.

CHERNIAVSKY, TOO.
But those who prefer the more intellectual entertainment will also be satisfied; for what could be more to the taste of the high brow than the technique of Gregor Chernaivsky, premier violin virtuoso?
Patriotism and Allied enthusiasm will be aroused by the thrilling decoration of "Marseillaise," by Mme. Rose Dion, who has recently arrived from Paris. Those who heard Mme. Dion at the French fete in the Brunswig gardens will never forget the magic of her recitation. Little Ben Alexander, the child actor in Griffith's "Hearts of the World," will be there in person.

MUCH DANCING.
There will be Spanish dancers, too, and dancing by the crowd itself, to the magic music of the Naval Reserve Band.

If, at the last moment, when the programme is read over, it is discovered that any form of entertainment has been overlooked, I am sure the New York Store folk will hasten to add that feature, so great is their enthusiasm in preparing for the success of their day at the Red Cross Shop. And—do not forget that the day is fast approaching—Saturday next, is the time! Eighth and Alvarado streets the place. From 2 until 10 the hours of the programme.

WANT FIGHTING MEN FOR THE TANK CORPS.

TEN-DAY DRIVE IS ON FOR TWO HUNDRED MORE TO JOIN THE SERVICE.

Two hundred and two specimens of the Southland's finest manhood who wish to see service in the "fighting" of Uncle Sam's military forces are sought by Lieut. G. G. Garland, recruiting here for the Tank Corps. Lieut. Garland has opened a ten-day campaign to secure 250 recruits and to date forty-eight have enlisted.
Men possessed of mental alertness, stamina and nerve are wanted for this corps, which is regarded as one of the most important in the army. Men between the ages of 18 and 40 are desired, whether in the draft or not.

The recruits selected will be sent at once to Camp Colt, Gettysburg, Pa., for a short preliminary training course and from there, overseas, where they will be trained in handling the big tanks.
In addition to real fighting men, a limited number of cooks, auto drivers, mechanics and blacksmiths are sought. The recruiting headquarters are located in room 411 H. W. Hellman Building, and the men must be obtained by the 31st inst.

GRANTS NON-SUIT.

Hamburgers W. S. S.

—Are you fulfilling that War Saving Stamp Pledge to Uncle Sam?

—Buy the quota you've pledged and buy it now at Hamburger's Soldiers' Booth, Main Floor.

A Word of Appreciation

—Comes to Mr. M. A. Hamburger from the Chairman Liberty Loan General Executive Board and Governor Federal Reserve Bank of San Francisco, expressing appreciation for the co-operation given by Hamburger's during the Third Liberty Bond Drive. Following is the letter:

LIBERTY LOAN GENERAL EXECUTIVE BOARD
LIBERTY LOAN GENERAL EXECUTIVE BOARD
THE LIBERTY LOAN GENERAL EXECUTIVE BOARD
SAN FRANCISCO

The Liberty Loan General Executive Board has charge of the Third Liberty Loan campaign and the United States Government for your participation in distributing the Liberty Bonds. The aid you have rendered is greatly appreciated and gives you the right to enjoy the consequences having helped your country at a critical period. It is earnestly hoped that you will contribute equal measure of co-operation in future campaigns.

May 1918
—We wish to take this occasion to extend this word of appreciation to the patrons of the Great White Store who have so helpfully co-operated with us in doing our part for the GOVERNMENT.

For Your Soldier Boy

—Send him a Comfort Parcel from Harrod's, Limited. We have photographs and descriptions of these—your order will receive prompt attention.

—A package of sweets or the little necessities that he will be sure to appreciate.
(Hamburger's—Soldiers' Booth—Main Floor)

See the War Map Today
—Keep in touch with the battle-line. We endeavor to keep this war map as accurately as possible.

—It is on exhibition in one of our windows.

AMERICAN IN ACTION

Extremely hard fighting between the Germans are concentrated on their lines, over the heavy guns of the army has fought so hard to efficient to warrant keeping

WITH THE AMERICAN ARMY THE AISNE-MARNE FRONT, 24, 12:30 p.m.—Along the line of Chateau Thierry, Franco-American forces have driven the Germans out of nearly all the Chateaux. The Allied advance was a considerable jump in that

the Germans are continuing their hard fighting and depending upon their machine guns. Later to the west, the American ascendancy over the line and drove through and beyond the town of Epieds.

the operations north of the Chateau line. The most intense fighting was offered along the extended German right flank, but the Allies are that the Allies have gained and that the Germans are unable to halt the movement toward their lines of supply.

WITH THE AMERICAN ARMY THE AISNE-MARNE FRONT, 24, 1:30 a.m.—The French, the British and the Americans are still pushing the flanks of the Crown Prince's army.

The Germans are known to have fought up fresh support forces at this point, but the Allies report the situation favorable.

Very favorable conditions brought down of aircraft this morning. It was an excellent one for observation, and this is expected to show the character of the fighting more clearly, especially with regard to artillery.

RUSSIAN MOBILIZATION NOT THOUGHT SERIOUS.

WASHINGTON DOES NOT ANTICIPATE ACTION AGAINST SIBERIAN OCCUPATION.

[IT A F. NIGHT WIRE]
